Kayden Lee

Freelance Software Engineer
Singapore

Summary

I love tech and programming, specifically web development. I know a variety of programming languages such as HTML, CSS, JavaScript, Python, C++ and C#. My most preferred web framework is React, and I mostly use MySQL for my databases.

I also love volunteering as I can give back to the society. For example, I volunteer at Engineering Good to repair donated computers and distribute it to those who need it.

Experience

Self-employed
Hobbyist Software Engineer
January 2022 - Present (1 year)

SGreliefteaching
Software Engineer
July 2022 - October 2022 (4 months)
